Personal Profile

With over thirty years experience in the construction industry, Chris has developed a wealth of knowledge and experience in commercial and general management. His experience spans mainstream construction and specialist contracting activities including a comprehensive involvement in rail and asbestos sectors. More recently Chris has specialised in environmental, focusing on the risks associated with asbestos in the built environment.

A confident, decisive manager and professional, his specialist knowledge and experience in the management of asbestos and legislative requirements along with a proven track record of delivering solutions to time and within budget. Chris maintains a safety conscious approach to responsibilities and demands care, thoroughness and high standards at all times in his strive for excellence and quality service.

Expertise

- Operational Professional
- Commercial Management
- Experienced Quantity Surveyor
- Asbestos Project Management
- Systems and Procedures
- Data Management and Planning
- Rail Industry Expertise

Chris focuses on developing and servicing a large national client portfolio operating out of three regional offices across a wide range of business sectors. He leads qualified and professional asbestos consultants on a national basis to manage Asbestos Consultancy, framework contracts, Asbestos project management and Asbestos Analytical requirements. Chris also leads business development initiatives for Asbestos Consultancy with a view to expanding the brand internationally.

The Environmental Solutions Division of QUALSURV International Ltd, managed by Chris, is prominent within both the Public & Private Sectors, notably Local Government and the Health Sector as well as a large corporate and commercial client base throughout the UK.

QUALSURV International Ltd are UKAS accredited for ISO/IEC 17025: 2005 - Testing Laboratory & ISO/IEC 17020: 1998 - Inspection Bodies.
