Personal Profile

Michael started his career as Quantity Surveyor working for Taylor Woodrow in the UK on the refurbishment of the Covent Garden Market and progressively worked for major UK based companies such as United Utilities, Kier and others in various International locations including USA, Eastern Europe, the Middle and Far East and North Africa.

The experience gained from the different types of projects and commercial challenges allows him to efficiently manage and deal with complex construction problems and contractual disputes. Working in Governmental, Public and Private Sectors Michael has delivered a professional service by working to support the business profitability and the sustainable growth of his Clients.

This in conjunction with his broad International experience and having worked on a number of different types of projects and contract forms, adds strength to his managerial background and taking ownership of all aspects of the commercial development and governance processes. Michael has contributed to the success of all the projects he has worked on and he has brought a high level of professionalism and expertise to his Clients.

Expertise

- Commercial Management
- Project Management
- Construction Management
- Contractual Advice
- Systems & Procedures
- Arbitration and Litigation Support
- Claims

Mike's project experience extends to marine, infrastructure, power, refurbishment, modular and commercial projects of various types. His most recent project starting April 14 is for Nobelwind based at Parkwind in Leuven. He provides contract and commercial support to the Parkwind development team along with an involvement in the preparation and execution of pre-qualification procedures, contract writing based on the FIDIC Forms of Contract and preparation of Invitations to Tender.
