

## Employers Representative

### Chipping Warden / Portbury Docks

#### PROJECT

Development of operational facilities at two sites in UK:

Chipping Warden is the site of a disused World War II airbase and is one of a number of logistic depots operated by Autologic Holdings.

Portbury Docks is one of largest facilities operated by Autologic Holdings and QualSurv acted as Employer's Representative managing a number of schemes within the site.

#### QUALSURV INVOLVEMENT

QUALSURV was responsible for a range of schemes for upgrading parking and transit areas within the complex. Our role included site appraisal, investigation and survey, production of drawings, specification and tender enquiries.
